Street	Santa Gema, 28
Web	<a href="http://www.arriezuvineyards.com/">http://www.arriezuvineyards.com/</a>

### Contact

Name	José Félix Arriezu Vera
Role	CEO

### Description

Arriezu Vineyards is a young wine cellar founded with the goal of producing the best organic wine with grapes from their own vineyards.

José Félix Arriezu, our CEO and founder, after years of study and projects, decided to start his own adventure, and begin the project choosing the best vineyards.

Nowadays it has 72 Has attached to D.O.C. Rioja, where the estate "Los Mejicanos" stands out. It is a 43 Has plot from where you can see the Ebro Valley and a sea of vineyards, that curiously is the origin of more than 25% of the actual D.O.C. Rioja vineyards. This is because it has been an inexhaustible source of vine shoots production for the vine plant producers for years.

Moreover, in Pozaldez Arriezu Vineyards has 90 Has attached to D.O. Rueda. It is in the estate "La Sombría" where our selection of pre-phylloxera Verdejo shows its ultimate expression.

Our wines have won several awards in national and international contests. A good example of this is Prowein, held in Germany, where in three consecutive years our wines have been awarded with gold medals, and special categories such as "Best of Show Rueda" or the "Best Value" award in the CWSA of Hong Kong.

## BODEGA/WINERY EDUARDO GARRIDO GARCIA

Producer	
Country	Spain
City	Abalos
Street	Pza.Constitucion #2
Web	<a href="http://bodegaeduardogarrido.es">http://bodegaeduardogarrido.es</a>

Contact	
Name	Amelia Garrido
Role	Owner

**Description**  
 A family winery since 1923 and several generations. The founder, Vicente Garrido, made his first wine in 1923 and his son Eduardo Garrido in 1945. The vinification has been completely made on the winery. All this time we have been in business under the family ownership. The Eduardo Garrido Wine Cellar is located in Abalos, (La Rioja), Spain, at the foot of the Sierra de Cantabria Mountains in the heart of Rioja Alta. For over 500 years, Abalos and its surroundings have been home to the best quality vineyards and wines in Spain. Eduardo Garrido, the proprietor and winemaker, has maintained the deep traditions and abiding spirit of the family wine cellar of the Rioja, preserving and carrying on the unique teachings of his father, Vicente, who founded the winery in 1923.

Our production is small: 30.000 liters of wine per year from 4 hectares of local vineyards of unique characteristics; one with aged vines for our Reserva and Gran Reserva wines, and the other with younger vines for the Joven and Crianza wines.

We age our fine wines in approximately 100 barrels of French and American oak.

Role	Area Export Manager

### **Description**

"Inspiration exists, but it has to find you working"... These well-known words, attributed to Picasso, aptly encapsulate the Altanza spirit. In our estate, the 160 ha vineyard and 50 ha olive grove are carefully managed throughout the year. Grapes from each terroir in the vineyard are destined to a wine of our range, according to their character. Thanks to our state-of-the-art facilities and nine French-oak vats, we are able to ensure refined and personalized winemaking. For ageing, we prefer French-oak barrels, always striving for an elegant, complex bouquet where fruit and oak aromas blend smoothly.

Founded in 1998 as synonym of quality and balance, dedicated mainly to top reserva wines, Bodegas Altanza is a winery that emerges being distinguished for its identity, passion, the know-how and creativity producing great wines like the Collection of Spanish Artists. From the very beginning we did not want to be only another winery offering beautiful labels; we wanted to offer more than that.

Our wines remain nonetheless easy to drink and food-friendly, something that has given Rioja its reputation as a world wine region. Offering quality wines and by drinking LEALTANZA (name which actually comes from old Spanish and means LOYALTY) we are also introducing our clients into the magical word of wine, transmitting them our passion for the wine making, for our land, for our illusion, for our Tempranillo, for our culture, for our food, for our music, for our favourite sport, for our fiesta...

<b>Description</b>	

The only Rioja winery which the well-known Saint James Way passes through. Our brands, Livius and Mileto, are made from centenary and old vines respectively, harvested by hand in 15 Kg plastic boxes and aged in high quality new French, American and Hungarian oak barrels. Artisan elaboration methods and new barrels transform the grapes into elegant and excellent wine, full of nuances which surprises the consumer pleasantly. Our wines are very well rated by Tim Atkin and James Suckling and have been worldwide awarded. Tempranillo, Garnacha and Graciano in single varietal wines are some of our boutique selection.

### **Areas of Activity**

**Description**  
 In 2013, we began to work in a unique environment where our indigenous forest and the traditional agricultural activities in our area have been living together and thriving for centuries. We were very keen to preserve and make viable this natural and human environment which is so typical of our part of the world. Our unique landscape of mediterranean forest and gentle slopes growing vines and olive trees happens to be one of Rioja's largest domains, and is located in the far north of the Ocon Valley, some 25 km (16 miles) southeast from Logroño.

Street	Paraje de San Juan s/n
Web	<a href="http://www.castillodemendoza.com">http://www.castillodemendoza.com</a>

<b>Contact</b>	
Name	Maria Besga
Role	Export Manager

**Description**  
 Bodegas Castillo de Mendoza is the result of the Mendoza family's passion for wine. It was born in 1994, when Eloy Antonio Mendoza recovered the family tradition of several generations devoted to viticulture and wine making, and founded his own winery in San Vicente de la Sonsierra, La Rioja.

Our 35 ha of own vineyards have an average age of 45 years, are located in San Vicente de la Sonsierra, La Rioja Alta, and are cultivated in an 100% Organic way, betting on biodiversity and sustainable development.

The elegance and maturity of our wines is achieved thanks to a fruit of excellent quality always collected manually, a selection in fruit-to-fruit table, a malolactic fermentation in new French and American oak barrels and a bottle aging and refinement in draft excavated in live rock, sheltered from darkness and controlled temperature and humidity.

We produce around 120.000 bottles per year. Our brands are:

## **BODEGAS CASTILLO DE SAJAZARRA**

<b>Producer</b>	
Country	Spain
City	SAJAZARRA
Street	RIO S/N
Web	<a href="https://www.castillodesajazarra.com/">https://www.castillodesajazarra.com/</a>

<b>Contact</b>	
Name	ALVARO RUANES
Role	DIRECTOR

### **Description**

Bodegas Castillo de Sajazarra began in 1973 with the purchase of the castle by the Líbano family and its recovery as a place for the elaboration and aging of wines that it had had in the past. The current building in the castle gardens creates an environment of unique beauty, together with the surrounding vineyard, forming an authentic "chateau". Currently there are almost 50 hectares of own vineyards in production (mainly tempranillo, but also graciano and garnacha) in the most extreme area of Rioja Alta, which gives our wines a day in the Atlantic character. The soils are calcareous and very poor clay, so the average productions range between 4,000 and 6,000 kilos per hectare. To get to achieve a perfect political maturity, expect a harvest very late, finish doing during the month of November. All the wines that we obtain in the elaboration after the American and French oak barrels, between 18 and 30 months, depended on the final product to be obtained. Apart from our Rioja reds we also produce a white and a rosé within the Denomination of Origin Alella, the names of the vineyards that we have in the place known as "Bell-Lloc" (beautiful place) located in the Catalan municipality of La Roca del Vallés.

Web	<a href="http://bodegascornelio.com/en/">http://bodegascornelio.com/en/</a>

<b>Contact</b>	
Name	Silvia Sáenz
Role	Export Manager

### **Description**

Small family winery. Our philosophy "Rioja en Cuerpo y Alma" focuses on preserving the varietal characteristics of the grape and transmitting through it the stamp and typicity of La Rioja. We always look for the varietal purity and the own character of the fruit from a vineyard in balance, self-regulated, able to produce quality grapes with what the medium provides and what its production demands.

These ideas are achieved through shallow soils, on hillside, with little organic matter and only the necessary water supply, in this way the grape produced by the plant is a true reflection of its character, expressed in grape of maximum expression and in wines with own personality. Old vineyards, harvested by hand, in 15 kgs cases, the vinification is made with the minimal intervention, patience and care. Small and exclusive production.

**Description**  
 Bodegas d Mateos is a familiar winery, with a long tradition of 7 generations dedicated to the vineyards cultivation. We are strongly committed to innovation and development. We are located in Aldeanueva de Ebro, core of Rioja baja wines. Through the years, in collaboration with CIDA (Government of La Rioja), we have made several projects of R&D&I, including the Tempranillo Blanco variety development, clonal selection of Riojan Graciano, Zero waste project (Residuo Cero), among others. The family owns Tempranillo, Garnacha, Graciano and Mazuelo vineyards, and the predominant plantation is bush vines, with a clay loam soil. We use barrels from the best french and american cooperages: 85% french and 15% american. We are exporting to more than 15 countries in Europe, America and Asia. And one of our main business is the personalization of the wines. We are working with these lines in Spain and in different countries around the world. We do not only change the labels for our clients, we even personalize the wine for our client. [www.bodegasmateos.com](http://www.bodegasmateos.com)

Pierola Group is a company dedicated to the viticulture, production and marketing of quality wines, The group is made up of 4 family wineries in the three Denominations of Origin with greater positioning and relevance, both in the national and international markets; D.O.Ca. Rioja, D.O. Ribera del Duero & D.O. Rueda.

The wines of the Piérola Group are an expression of the "terroir" of the area, looking for that singularity of the traditional vineyard and the variety accompanied in its elaboration with the most modern technologies, to obtain intense and elegant wines. All this together with a commitment to the sustainable use of energy in each of our four wineries, Wind energy, Geothermal energy and Photovoltaic energy; making an important reference in our philosophy. We are also very focused on wine tourism, we have a boutique hotel within our Rioja and Ribera del Duero wineries, in order to offer the client an exclusive and different experience.

### **Description**

We are a family owned Estate winery. Focused on quality, our wines have personality and the characteristics of our terroir. All the vineyards are surrounding the winery, being the furthest vine 900 meters away. The Estate is located in the coolest spot of Rioja and being at 700 meter of altitude, has the influence of the winds from the North (cold and dry) and the soil is deep and heavy red clay, making unique and personal wines.

As Luis Gutierrez (Wine Advocate) mentioned in his report about Rioja: Winds of change, "The whole range that comes from 40 hectares mostly planted in the 1980s and at 700 meters altitude is highly recommended (...) and deserves more attention."

### **Description**

Bodegas Leza García is a family business making and trading wine produced from our own vineyards. Our Bodega is located in the Rioja Alta, a historical area of Rioja, well known for the excellent quality of its wines. Our family has been dedicated for generations to grape-growing and wine making, producing high quality wines to satisfy wine lovers. During the first part of the Twentieth Century, our grandfather Juan Leza Arenzana, started in the wine business. We have received a legacy of caring for the land and a tradition of making the best wines. We are family-owned wine producers, based on an integrated management of the vineyard and of the winery. We take care, and are proud of, the whole process – from the vineyards to the bottle. We grow our grapes in our Najerilla Valley vineyards, in the heart of the Rioja Alta. We produce wines which are unique and have their own personality, showing the terroir and our own winemaking style and knowledge. We remain true to our inherited winemaking values while offering different and modern wines, with their own personality, showing the terroir where the grapes are grown. Our vineyards enjoy privileged weather conditions for growing grapes thanks to the confluence of Continental and Mediterranean climates with considerable temperature differences between day and night. We pamper our vineyards throughout the growing season, from pruning to harvesting, to produce the best possible wines of high quality to satisfy lovers of good wines. We are always searching for excellence, bringing in our wines all the best characteristics of the terroir. We offer wines that show the inherited personality and values of good winemaking while offering modern, different and consumer friendly wines. We strive to highlight the singularity of our wines, showing the uniqueness of the vineyards where the grapes were grown.

### **Description**

Boutique winery located in the medieval village of Laguardia in the heart of Rioja Alavesa. We produce unique, terroir-driven wines that provide an authentic expression of our land using indigenous grape varieties, sustainable and meticulous viticulture, innovative winemaking and special care for the wood we use in aging.

We own 55 hectares of vineyards, all within a 15km radius from the winery. This allows us to control all viticulture processes throughout the year, using precise farming practices and working each plot individually depending on the needs of the vineyard. From our three single vineyards come five unique wines with distinct personalities influenced by their specific terroirs.

We are pioneers in wood working, customizing all our barrels "à la carte" for each of the wines. We are involved in the whole process of curing, fining and drying as well as the periodic analysis of the components that influence the aromas of the wine. Our single-vineyard terroir wines will transport consumers on a sensory journey to the mystical land of Rioja.

### Description

Bodegas Paco Garcia is one of the most vibrant and exciting new wineries to emerge in the past few years in Rioja. This young husband and wife team of Juan Bautista and Ana Fernandez Bengoa took over their parent's old winery in Murillo de Rio Leza in 2008 and completely modernised it throughout, and the changes made were immediately obvious from the very first wines they produced. Combined with their strikingly unconventional labels, Paco's wines are immediately recognisable on wine shelves and restaurant lists.

Role	Export Manager

**Description**

San Esteban was the first cooperative winery built in La Rioja (1953) and was composed of 16 members at that time, now there are more than 480. A modest modernization of the facilities started in the 80s by incorporating stainless steel tanks. In 2000 a major expansion was approved, with the latest technology in terms of production and bottling. The origin of the grapes is exclusively from our own vineyards. Our vineyard includes 550 hectares of old vines, the oldest is from 1900. Located where the Jubera River meets the Leza River, our vineyards are planted on clay-ferrous soils at an altitude between 407 and 420 meters. The Mediterranean climate has well distributed rainfall throughout the year. The result is the highest quality of grapes, whose production is naturally regulated by the natural water experienced by the plant. The experience and enthusiasm of our grape growers, advised by our experts, do the rest, thus obtaining outstanding results of our best terroirs. The grapes which constitute the basis for our wines enter inside the winery at their optimum level of ripeness and under total oenological control. There is meticulous expert advice from technical staff at vineyards in order to control the annual cycle of the vineyard. From pruning to the treatments to be performed, each plot is thoroughly monitored so that the final product of a top quality of wine is ensured. The wines made are a perfect example of La Rioja expressing the terroir of Murillo de Rio Leza located only 11 km from Logroño.

Role	General Manager

**Description**

Bodegas Sonsierra is located in San Vicente de la Sonsierra, Rioja Alta. Almost everything we are, we owe to our land. The name means "under the mountains", and describes a place where wine has helped shape an extraordinary natural, historical and cultural landscape. One could even argue that Rioja wine was born in this particular area, as demonstrated by the evidence of ancient winemaking practices found here (prehistoric remains, wine-related architecture and a cultural heritage of immense value). The outstanding singularity of our wines has placed them among the most reputed in Rioja.

Very fine and aromatic in their youth, they turn out well-balanced with a delicate bouquet once they have been aged. We are a winery with great capacity of production. Although we have our own brand "Sonsierra" we also have capacity to bottle wines with other brands.

Please find some pictures of our winery in the following link <http://sonsierra.com/es/galeria> Twitter: @BodegaSonsierra

Role	Export Area Manager

### Description

Bodegas Taron is the northernmost winery in DOCa Rioja and comprises four generations of vine growers from 4 small villages in La Rioja: Tirgo, Cuzcurrita de Río Tirón, Villaseca and Sajazarra. We are located in one of the most famous terroirs in Rioja Alta, a Northwest district with an atlantic climate but protected from the cold northern winds by the Obarenes Mountains. In our soils we can find the secret which makes our wines perfect for barrel ageing. These lands, with vineyards located above 600 metres high, are very difficult to cultivate because you must show a great care on the vine to reach the ideal point of ripening. We use local varieties, like Viura, Garnacha or Tempranillo, that find a perfect environment in these clay-chalky soils. These two elements give our grapes an authentic character that is shown in our strong-personality wines. All our wines have been awarded with the top quality price- ratio marks in the most prestigious publications as Peñin Guide, and have obtained international awards in Decanter World Wine Awards, Concours Mondial de Bruxelles, International Wine Challenge, etc. You can see photographs of our vineyards and wines on our website [www.bodegastaron.com](http://www.bodegastaron.com)

### Description

The best histories are always those we share; ours began over 130 years ago and has been written day by day by five generations of the same family. All have contributed their passion, their ideas and their personality to create what Bodegas Valdemar is today. Each of them has transmitted their values and understanding of wine to the next generation. Focusing always on the grapevine and on local varieties, we have searched for distinction based on the personality of the estate, consistently working with our own vineyards in Rioja Alavesa, Rioja Alta and Rioja Baja. Our vineyards, as well as the wines coming from them, reflect Valdemar personality. We have single plots, such as Las Seis Alhajas or Balcón de Pilatos; prestigious vineyards, such as the Finca Alto Cantabria estate; or one of the most important of all of Rioja, Finca del Marquesado. - Conde Valdemar was born with the spirit of joining tradition and innovation. - Pagos Valdemar is a commitment to working in microplots, using local Rioja grapes to create modern wines, differentiated from each other. - Finca del Marquesado is the fruit of the third generation that discovered this stunning estate of over 35 years, origin of a wine that is as unique as the estate. - Fincas Valdemar reflects our personality and our hallmark in different wine regions of origin, maintaining the essence of each area.

### **Description**

Vivanco is a lifelong dream that came true in 2004. A contemporary winemaking project with different unique wines. We feel that our wines have to tell a story, should be authentic and sincere, transmitting the expression and personality of our vineyards. Making them and ageing them with utmost respect, but from a demanding dynamic, up-to-date vision. The winery owns 450 ha. in different Rioja areas, because the best way to define Rioja is "diversity", each grape variety finds its ideal place to express itself. Our wines are born in the vineyard, where they truly acquire their personality. We picked them by hand in small tabs or crates to prevent the berries from bruising and ensure remain whole. We use all our grapes first go onto a cluster sorting table and then onto a berry sorting table. Gravity-fed vatting using French vats for the maceration and fermentation. Aging takes part in French and American Oak, our wines are released when we think that they are ready for enjoying them.

### Contact

Name	Israel Eguíluz
Role	Winemaker

### Description

Founded in 1982 in the town of Ábalos at the foot of the Cantabria mountain range, Bodegas y Viñedos Eguíluz began as the personal project of Javier Eguíluz, a farmer and grape grower committed to the body and the soul of his vineyards. From a very young age Javier aspired to make his own wine from his family's land. Today the Eguíluz winemaking is a father-and-son endeavor. Javier and Israel work together with a single-minded vision of making wines.

Our goal is to craft wines that are true to their roots—authentic, eloquent wines that faithfully represent the uniqueness of our region and its historic commitment to winemaking excellence.

We always look for terroir-expressive wines that transport us back to the vineyards in which they born and reveal the craftsmanship of the people who work them.

We create modern wines using time-honored methods. Our mantra is minimal intervention throughout the process, crushing the grapes in concrete vats by foot as our ancestors did.

### Description

The Heras Cordon family tradition in wine production can be traced back to the end of the 19th century, when the family built the first cellars in their hometown of Lapuebla de Labarca in the Alaves area of the Rioja. At the start of the 1990s, a vineyard was purchased in Fuenmayor, a municipality in the Rioja. This was the ideal location for the construction of the new installations which the winery continues to use to date. This construction began in 1995. Aiming to maintain traditional features, stones were bought for the construction of the winery from abandoned 19th century railway stations. A 10 meters deep excavation was made in the warehouses to allow the aged and reserve wines to rest and mature. Construction of the new installations concluded in 2001, the same year as the first HERAS CORDON wine was produced in the new installations – classified by the Regulatory Board as an excellent harvest and a vintage of the century. There are fifty hectares on the property for the production of these great wines, plus the acquisition of the harvest from a further sixty hectares from local farmers who are assessed to ensure excellent grapes are obtained. All the vineyards are in two sub-areas of great prestige and high quality: Rioja Alta (Cenicero, Fuenmayor and Navarrete), and Rioja Alavesa (Laguardia, Elciego and Lapuebla de Labarca). Later, in 2004, the “HERAS CORDON BOTTLER’S CLUB” was started: 142 customers receive their bottles in accordance with an annual consumption agreement, wherein they are allowed to use the installations and personalise their bottles. At the end of 2005, a private restaurant (capacity: 50 people) and a function room (capacity: 30 people) were opened for the exclusive use of the winery and members of the bottler’s club. The near future will see the opening of a warehouse to house the end product, a shop to sell wines and a small hotel with 8 rooms for customers and friends.

### **Description**

Bodegas y Viñedos Ortega Ezquerro was founded in 1989 when Carmelo Ortega, after several years of experience in the wine world and culminating the trajectory of his family, acquires a vintage and traditional rambling house located in the village of Tudelilla. Carmelo Ortega is nowadays the owner of the winery. He has followed the trajectory began in 1896 by his great-grandfather, D. Quintín Ortega.

The Ortega family is one of these vine-grower families who have learnt how to develop and improve with the new times; changing their philosophy of quantity and generous yields into quality and low yields. Tudelilla is very well known in the DOCa Rioja as it is considered the "outstanding quality island" of Rioja Baja. This consideration is due to the singular features of the land and the soil in this area, called "La Pedriza de Tudelilla" and situated 650 meters high. The name in Spanish "Pedriza" means stony ground, very poor soil and airy. Tudelilla has always been our most important bet and, for this reason, we are very proud to announce that Ortega Ezquerro is the first winery registered in this category. Last year we launched our ORTEGA EZQUERRO Vino de Pueblo 2017, and this year you will be able to taste 2018 and the barrel-aged 2017. We hope you can come to see and taste our Vino de Pueblo and the rest of the wines on the 27th February, 2019.

### **Description**

Señorío de Librares is a small family winery from La Rioja, Spain. We are the third generation at the winery and we plan to not only follow the traditions of my grand father but to evolve and add our own personality to the brand.

Our family has been dedicated to wine for more than a 100 years. This dedication goes back to the Universal Exhibition in Paris in 1878, where our great grand father Pedro Maria Espinosa won the gold medal.

Year after year we come up with new ideas for our wines, developing a more modern and responsible brand. For years now we had been working on our next wine. We will have the pleasure of announcing our first organic wine this season. It is certified organic under the USDA National Organic program.

**Description**

Consejo de la Alta, family owned winery, was founded in the early 1990's. But it was 1846 when Mr. Hipólito Bañuelos, one of our ancestors wrote the first document, so far as we know, about the quality and the treatment needs for the overseas shipment of wine. From then on, we try to follow the Hipolito's steps, elaborating wines with the knowledge, dedication and love he did. The national and international prizes are the recognition we are on the right way.

Role	Export Area Manager

**Description**

D.O.5 Hispanobodegas is a group of wineries which produces and distributes quality wines from the most emblematic winegrowing Appellations of our country: Rioja, Ribera del Duero, Rueda & Rías Baixas which together represent about a 45% of the officially certified wine produced in Spain.

The group is a 100% Spanish property and it is formed for a set of three wineries:

- Bodegas Valdelacierva - D.O.Ca Rioja,
- Bodegas Gormaz - D.O Ribera del Duero,
- Bodegas Garci Grande - D.O Rueda

Hispanobodegas is adding to its portfolio wines from V.T Castilla y Leon

Founded with the idea to offer high-quality wines by working with prefiloxeric vines between 80 years & 200ys old (Limited production) from the most renowned winegrowing regions in Spain.

Many of our wines have won awards in prestigious international wine competitions and have received high points from some of the most prominent wine guides, magazines, and critics including Robert Parker & Stephen Tanzer, Wine Spectator & Wine Enthusiast.

### Description

Domain of the carabo was born in 2014 with the intention of recovering old vineyards of Rioja Alta and Alavesa.

This young one-person project is growing rapidly, moving from a wine to a different time marketed through 3 lines: 4 elements: Fresh, modern and direct wines. Wines of young vineyards of Rioja Alta and traditional varieties such as tempranillo, graciano or viura.

Carabo: Modern, complex and advanced wines. Fine, elegant and special. Everything comes from old vineyards at high altitude in Rioja Alavesa and Rioja Alta. Varieties such as white tempranillo, malvasía, garnacha, mazuelo ...

Experimental: Son Wines outside Rioja where we use novel and unique elaborations to make very special and exclusive Wines.

All wines are LIMITED EDITIONS, going from 38,000 to 300 Bottles. The total project adds up to 108,000 bottles. We make each wine differently, depending on the types of grapes and the conditions of each harvest. We are committed to quality and differentiation.

<b>Contact</b>	
Name	Marc Calonge
Role	Export Manager
<b>Description</b>	
<p>More than 130 years of wine history guarantee the tradition of Familia Martínez Bujanda in the elaboration of wines. The company is formed by 5 wineries: FINCA VALPIEDRA, VIÑA BUJANDA, FINCA ANTIGUA, FINCA MONTEPEDROSO and COSECHEROS Y CRIADORES. These wineries are all very different but with one common denominator: to make wines with our own grapes coming from vineyards located in privileged enclaves. For generations our philosophy has been based on excellence and innovation in all its facets: from the exhaustive and constant monitoring of the grapes in its vineyards to the glass.</p> <p>Our long tradition in the world of wine has led Familia Martínez Bujanda to search for the best vineyards in each area, thus owning more than 200 hectares of vineyards in La Rioja, 125 to produce Viña Bujanda wines and a single Estate of 80 has for Finca Valpiedra, the only winery from Rioja associated with Grandes Pagos de España. Finca Antigua, in La Mancha, is a spectacular Estate with 421 hectares under vine and 500 hectares of scrubland. And finally, Finca Montepedroso, in Rueda (Valladolid) which has 25 hectares of vineyards. These vineyards enjoy exceptional conditions due to specific locations, height, microclimate and stony soils, among others.</p> <p>At Familia Martínez Bujanda each winery has its own identity: Finca Antigua is the result of innovation and creativity. Finca Valpiedra is a new way of understanding Rioja wines. Viña Bujanda, wines that update the tradition of Rioja and Finca Montepedroso, the return to the real Verdejo, a single wine from a single vineyard where altitude, grape variety &amp; quality, combined with innovation skills, solidify the making of world class white wines. And finally, Cosecheros y Criadores which produces modern, versatile and excellent quality-price wines of "Vinos de la Tierra de Castilla" and "Vinos de España" with vintage and grape variety.</p>

### Description

Nowadays it is the fourth generation, 1890, with a new life philosophy, continues with the family winemaking tradition. Taking care and preserving its own vineyards in Rioja and in Tierra de Castilla; who decides to market their own wine brands, 2016. Always with the same enthusiasm from the beginning and the duty of work well done. Low yielding vineyards. Manual harvest and selection of grapes in the field. Grapes chosen for their health and ripeness from our best vineyards.

We have two different ranges:

- IREKUA: we elaborate exclusive garage wine with a cheerful structure, developing our values: own vineyards of small plots of old vines (25-90 years old), in Entrena, Navarrete and the Rioja Iberian mountain, between 525-900 m altitude. The 40% of them are within the Biosphere Reserve, Unesco 2003, care in an environmentally friendly way. Small and controlled production capacity.
- VAL D'ECO: we made of 100% organic and vegan way, also certified by Bio-Siegel (Germany). Our vineyards are located 725-780 m. The terroir is characterised by a beautiful colour reddish earth, fruit of sediments with a stony-limestone terrain, ideal for the vine, as: Airén, Sauvignon Blanc, Tempranillo, Cabernet Sauvignon and Syrah. The wines are distinctive, both in taste and with a well-known structure.

Our wish: welcome, taste our wines and let express themselves on your palate :) We are looking importers for a long term relationships.

### Description

Passion and love for the vineyard and knowledge and expertise in the art of viticulture have been our family's most important inheritance. Three generations have been able to preserve the commitment to an idea which is much more than a business enterprise: it is a family legacy; it is our way of life. Always loyal to the land, with a fighting innovative spirit we have maintained the project started by our grandmother and continue by our generations dedicated to wine making. Our wines are produced in 2 of the most prestigious wine regions in Spain: DOCa Rioja and DO Navarra. Our winery D.O.C.Rioja is surrounded by Tempranillo vineyards. It's located in the earth of La Rioja which is situated in the sub-zone of Rioja Alta, in Bobadilla town.

In our wine cellar, French and American oak barrels live in harmony, and offer us a unique feature in each variety. Our winery is located in the earth of La Rioja which is situated in the delimited production area by Denominación de Origen Calificada Rioja.

Our main strengths: Family winery founded in 1957. Vast experience exporting: 90% of the production. We actually export to 15 countries in Europe, America and Asia and we are looking to expand our international distribution. We would like to build long term business relations. Diverse range of wines with different styles and regions: DOCa Rioja and DO Navarra. We combine tradition and new technologies in our productive process. Our repositories are made from concrete, which are excellent for wine-making and for preserving, in all their splendour, the fruitiness and freshness of our wines. We cultivate the indigenous varieties of each region (Navarra - Garnacha and Graciano / Rioja - Tempranillo).

<b>Contact</b>	
Name	Eduardo Pelayo
Role	Export. Department

**Description**  
Marqués de Vargas, set at the centre of its own vineyards, in line with the château concept, lies in the heart of the Ebro valley, in an area popularly known as Los Tres Marqueses, as it is home to the vineyards of three reputed Rioja wineries, each founded by a different Marquis. It is a wonderful location for growing grapes thanks to its continental climate enhanced by Atlantic influences. Its gentle topography has a high clay and limestone content that helps to produce balanced, full-bodied wines with high levels of total acidity that are particularly suited to ageing in barrels. This is what our Reserva, Gran Reserva, Selección Privada and Hacienda Pradolagar wines show.

Web	<a href="http://www.hermanoshernaiiz.com">http://www.hermanoshernaiiz.com</a>

<b>Contact</b>	
Name	DIANA PEREZ
Role	Export Department

**Description**  
In 1996 the Hernáiz family acquired a historic vineyard in Baños de Rioja, a vineyard that had belonged to Eugenia de Montijo, Empress of France. Thus began a project dedicated to the production of quality wines, a project called Finca La Emperatriz, which is currently a consolidated reality.  
In 2017 the horizon was extended with new wines from other vineyard estates located in other towns of La Rioja, and thus opened a new era. Viñedos Hermanos Hernáiz was born, a firm to host all the elaborations of quality wines of the Hernáiz family in Rioja Alta.

Today, Eduardo and Víctor Hernáiz lead Viñedos Hermanos Hernáiz, which produces different wines, always based on the potential of the terroir of the vineyards owned by the family. The aim is common: to extract the essence of each one of those landscapes, so that the elaborated wines really transmit the character of the land from which they come.

Contact	
Name	Adrián Moreno Llorente
Role	Owner
Description	
<p>RULEI PHILOSOPHY = ONLY TERROIR WINES</p> <p>A different way to understand the Rioja, by cultivating the vineyard considering its origin, its evolution, its features and in particular its production.</p> <p>Adopting a sustainable viticulture in order to respect the biodiversity and the natural resources.</p> <p>Elabotating only the best vintages, by valuing the maturation of each variety and also by selecting meticulously the grapes and finally by being very careful with grapes during the transport.</p> <p>The result: wines with unexpected sensations and a unique identity.</p> <p>Architect and graduate in Business, he personally cultivates the old vineyard that his family passed him down. He makes his wine since 2011 in the small family winery, located in Badarán, Rioja Alta. Restoration and reform by him, to adapt it to the winemaking processes of today, always vinifying in concrete tanks.</p> <p>THE TERROIRS:</p> <ul style="list-style-type: none"> <li>- Viña Barracallo, this forty-years old vineyard has autochthone varieties like Viura or Tempranillo as well as varieties considered as experimental in Rioja like Chenin Blanc and Cabernet-Sauvignon. In a stony alluvial soil with quartzites from the quaternary period, very poor, it reminds us the Medoc in Bordeaux. Production: around 5,500 kg/Ha. Altitude: 551m</li> <li>- Viña El Moral. With more than 100 years of life, it has the Garnacha variety. It is located in a soil of clay and iron loam of the Tertiary period, with a reddish colour and with an outcrop of silex and pebbles. Cataloged as Singular Vineyard by the Consejo Regulador of the DOCa Rioja from the 2018 vintage. It's possible now to taste the 2014 vintage. Production: around 3,500 kg/Ha. Altitude: 623m</li> </ul>

 Role Export manager

### Description

From ends of XIX century, four generations of the Viteri's family have devoted themselves to cultivate the grapevine in the Rioja Alavesa Area. The Vineyards of this family winery have a middle age of 60 years and spread over the regions of Laserna and Laguardia, achieving, year after year limited yields and ideal ripeness that produce grapes of balanced composition and wines with a very expressive character.

The vines are cultivated in a number of parcels, all under four hectares in extension and all very close to our winery location. This has made our wines have complex structure and personality derived from the terrior of these parcels for generations. Our wines have been exported during the last three years and have received international recognition and awards.

Using the most advanced technology in a modern winery in the centre of Laserna, we make about 250.000 litres of wine, most of which is red plus a small amount of white and rose.

The racemes are harvested by hand, in the traditional vintage baskets of 20 kg capacity avoiding the deterioration of the grape assuring it arrives at the winery in ideal conditions without problems of oxidation.

Name	Cristina Gutiérrez Ruiz
Role	International Manager
Description	
<p>"Viña Ijalba is a winery located in Northern Spain under the centenary appellation DOCa Rioja. We produce and market a wide range of organic wines. Apart from the traditional Crianzas &amp; Reservas, the search for a distinctive aspect has marked our philosophy from the very beginning. Involves in different research projects to improve the cultivation and production of wines, we started the elaboration of wines coming from forgotten and neglected native varieties from Rioja, like Graciano, Maturana Tinta &amp; Maturana Blanca, being the first winery in the world making single varietal form these varieties.</p> <p>From our 90 hectares of vineyards, we produced wines that are being currently exported to countries like USA, Mexico, Canada, UK, Germany, France, Switzerland, Denmark, Sweden, Norway, Poland, Hong Kong, or Japan among others. The extensive experience at an international level, is shown in our frequent presence in wine guides and specialised press and journals since 1993.</p>

 Web <http://bodegasolabarri.com>

### Contact

Name Sara Fernandez Bengoa  
 Role Commercial Director

### Description

Family own winery set in Haro, devoted to the production of elegant wines reflecting the character of Rioja Alta. The winery is specialised in Crianza and Reserva wines and we limit the selection of our wines to those produced in the Region of Haro. To achieve this, our technical team accomplishes an exhaustive follow-up and selection among grape-growers and cooperatives in the area.

### Contact

Name Enrique Torrecilla  
 Role EXPORT MANAGER

### Description

Real Rubio is a family winery with over 150 hectares of planted vines whose differentiating feature is the range of diversity of grape variety and the great age of many of them. This diversity, managed using novel, environmentally respectful growing practices which seek to extract the best qualities from each parcel, provides us with excellent raw material for turning into wine. From these grapes we make our wines, with respect and rigueur so as to keep their natural virtues intact throughout the winemaking and ageing processes.

The results are personal, elegant wines which refresh and surprise those who try them.

**Description**  
ZINIO Bodegas is the socio-economic engine of Uruñuela, a town of 967 inhabitants located in the heart of Rioja Alta. Viticulture is our economic activity par excellence and for that reason ZINIO Bodegas is a symbol and a pride for us.

We want to share with the world our way of life through our wines, promote a sustainable model of viticulture, and generate value to society and the families that make up our winery. We are constantly changing, creating and innovating both in our wines and in the new wine tourism project that will be released shortly.
