General Information

Short summary

A Greek construction company, operating since 1982, is looking for permanent concrete safety barriers, supporting passive road safety and any other road applications. CE certification and EN 1317 testing are required. The company is interested in supply or license partnering.

Full description

The Greek construction company was founded in 1982 with the aim of producing prefabricated building elements and building with them high-standard construction projects. One of the main areas of activity are road construction projects mainly on national roads. The company is looking for providers of permanent precast concrete safety barriers, which are used as dividers for supporting passive road safety and any other road applications. The company is interested in supply or license partnering agreement.
