General Information

Short summary

French company provides professional equipment for businesses with several solutions (traffic signs, street furniture, establishments open to the public, road and worksite, green space, warehouses and factories, events materials). They are looking for new suppliers located in Europe that can provide 7 000-10 000 / year steel bollards for street equipment.

Full description

French company provides professional equipment for businesses with several solutions (traffic signs, street furniture, establishments open to the public, road and worksite, green space, warehouses and factories, events materials).

They equip local communities with more than 270 products including galvanized steel bollards used to delineate certain areas. This product:

- is designed to be functional, simple and aesthetic
- Comes in 5 different dimensions (Ø 60, 76, 90, 200, 114 and 168 mm)
- Planned to be concreted directly into the ground or removable using lockblock system
- Exists in a version with one or two ringlets to link the bollards together with a chain

They are looking for suppliers located in Europe that can provide 7 000-10 000 / year of these steel bollards.

Advantages and innovations

Technical specification or expertise sought

The steel tube:
