General Information

Short summary

An Italian company of Maintenance Service & Construction (for the sectors: Oil & Gas, Petrochemical, Power & Energy, Engineering, Metal Carpentry, Piping) is looking for international partners. The desire is to create commercial/license/manufacturing/services agreements or subcontracting.

Full description

The company is an important player (domestically and internationally) in the area of Maintenance Service & Construction for the sectors: Oil & Gas, Petrochemicals, Power & Energy, Engineering, Metal Carpentry, and Piping. It has several years of experience in the provision of comprehensive services related to the design, supply, assembly, and maintenance of industrial plants of different kinds. Its clients are relevant national and international business players and its portfolio included important works in refineries, oil collection centers, LNG terminals, offshore platforms, thermoelectric power plants, and furnishing of pressure vessels.

The company wants to expand its business in the sectors of renewable energy (in particular hydrogen), nuclear power plants, and water treatment.

The strength of its strategy is to internalize all the processes, from the beginning until the end of the project, using its multidisciplinary.

The company is looking for new international partners preferentially with matured transnational cooperation

experience. In particular, it is looking for industrial plant manufacturers and energy producers.
The desire is to define with them commercial\license\manufacturing\services agreements or subcontracting.

Certifications owned by the company:

UNI EN ISO 14001, DIN EN ISO 3834-2, UNI EN 1090-1, SOA, UNI ISO 45001, UNI EN ISO 9001, ASME U Mark

Advantages and innovations

Multidisciplinarity; Provision of all the EPC phases; Pressure equipment

Technical specification or expertise sought

Energy Production, Industrial Plant Manufacturing, Hydrogen

Stage of development

Sustainable Development goals

- **Goal 9: Industry, Innovation and Infrastructure**
- **Goal 7: Affordable and Clean Energy**

IPR Status

Partner Sought

Expected role of the partner

Industrial Plant Manufacturing, Energy Production

Type of partnership

Outsourcing agreement

Commercial agreement

Type and size of the partner

- **R&D Institution**
- **SME 50 - 249**
- **SME 11-49**
- **SME <=10**
- **University**
- **Big company**
