## General Information

### Short summary

The Lithuanian orthopedic footwear manufacturer is expanding and therefore is looking for partners in the EU and other countries who have the capacity to produce part of the company's orthopedic footwear orders. The manufacturing or subcontracting agreement is offered to potential partners.

### Full description

The Lithuanian manufacturer is on the market since 1945 and is specialized in the production of high-quality and modern orthopedic products such as custom-made footwear, insoles, supports/orthoses, braces for sports and rehabilitation orthoses, i.e KO (knee orthoses), AFO (ankle foot orthoses), KAFO (knee ankle foot orthoses), DAFO (dynamic ankle foot orthoses), etc.

The company also has its own medical clinic.

The company is expanding and therefore is looking for partners in the EU and other countries who have the capacity to produce part of the company's orthopedic footwear orders. The new partner should be a manufacturer of orthopedic footwear that can produce whole footwear (uppers stitching and bottoming) or only uppers stitching according to individual orders.

The manufacturing or subcontracting agreement is offered to potential partners.

#### Advantages and innovations

- Experience over 78 years.
- A wide range of orthopedic products (lasts, insoles, footwear, braces, prosthesis and etc.).
- Finished or partly finished products. Orthopedic products according to requests.
- An online ordering system for bespoke products.
- The company can help not even in production but in the development process as well.
- The company updates materials to go step by step with the latest trends and technologies.
- ISO 9001 quality management system since 2001.

#### Technical specification or expertise sought

- Potential partners are expected to have all necessary equipment for the production of orthopedic footwear, i.e pattern making, cutting, upper preparation, and stitching machinery as well as shoe assembly equipment.
- The partner should have all the materials in its warehouse (leathers, fastenings, paddings, stiffenings, materials for soles, etc.). The possibility of supplying materials from a Lithuanian company could also be an option to be considered.
- It should also have a very good knowledge of orthopedic footwear production processes and nuances.
- It is expected that the partner will be able to accept and produce about 10 orders per week.

#### Stage of development

**Already on the market**

IPR Status

#### Sustainable Development goals
