General Information

Short summary

A Finnish SME is searching for ecologically sustainable sunglass/eyeglass case manufacturer. The cases should be hard, soft cases or pouches are not acceptable. The partnership should be long-term supplier agreement.

Full description

A Finnish SME designs and manufactures personalised eye and sunglass frames by using 3D printing technology. Ecological sustainability is a key value, due to the low waste of 3D technology and possibility of material reuse.

The company is searching for sunglass/eyeglass case manufacturer who can provide cases made from ecologically sustainable materials, and also the manufacturing process should be ecologically sustainable. The cases should be hard and preferably foldable. As an example, wood based materials, felt, or recycled plastic are suitable materials. Soft cases or pouches are not accepted. Also the Finnish company's logo needs to be printed on the case.

The model can be designed by the searched supplier, when the Finnish company hasn't designed any case models.

Initial order would be around 2000-3000 cases, the estimated order frequency is every 4 months and estimated quantity 2000 pieces per order. The expected partnership should be long-term supplier agreement.

Advantages and innovations

Technical specification or expertise sought

The Finnish company is looking for eyeglass cases that are ecologically and sustainably manufactured. The cases should be hard and preferably foldable for easy shipping. Offers for soft cases or pouches are not suitable. The client also needs their logo on the case. The searched partner should have ability to be consistent with product quality.

Initial order would be around 2000-3000 cases. Estimated order frequency is every 4 months, and estimated quantity 2000 pieces per order.

Approximate size for the case should be (length x width x height) 16 cm x 6 cm x 4 cm. Measurements are taken from the inside of the case.

Suitable materials for these cases could be e.g. wood based materials, felt, or recycled plastic.
