## General Information

### Short summary

A manufacturer of non-alcoholic cocktail mixers from Poland intends to sell its products in new 100ml bottles. For this reason, the company is looking for suppliers of bottle caps which are 18mm high and have 25mm in diameter and have temper-evident bands (security rings). The firm is ready to start the cooperation with the order of 5000 caps, with the possibility of increasing the amount in the future.

### Full description

An SME from northwest Poland specialises in non-alcoholic cocktail mixers production. The company commenced operation in 2020 during the pandemic and the lockdowns. A group of bartenders from one of the best Polish cocktail bars wanted to make their craft drinks available to people forced to stay home and prohibited from gathering. They've started with a few simple ingredients and recipes and, with time, expanded their offer, which now includes eight various cocktail mixers. The company's offer is available under BOPL20220713005.

Now, the company is looking for bottle cap producers and suppliers. The caps' dimensions should be 25x18mm (diameter x height). They should have temper-evident bands (security rings). The company wants to start with the order of 5k caps and is ready to continue the cooperation if it's satisfied with the supplied products.

## Advantages and innovations

---

### Technical specification or expertise sought

The firm is looking for a reliable, experienced and financially stable partner who can supply caps for 100ml bottles. It requires caps with the following parameters:

diameter: 25mm

height: 18mm

They should include temper-evident bands (security rings).

The company would like to start with the initial order of 5k caps, with further orders coming in the future.
