## General Information

### Short summary

This France-based company regularly searches second-hand food machines or even plants from agri-food industry companies all over the world. Mainly for bakery, biscuits activities but it can also concern chocolate, confectionary, milk, cheese, meat, packaging sectors. It is presently searching for new suppliers in the frame of supplier agreements.

### Full description

This French company founded in 2008 has developed a business trading in used or second-hand equipment for the agri-food industries.

These plants or machines were used as industrial equipment for the following activities :

- bakery
- biscuits activity
- chocolate
- confectionary
- milk
- cheese
- meat

- packaging sectors

Over the years, it has been doing business with a wide network of national and international companies so that the company's manager has a very good experience of this type of activity.

The SME wishes to identify new suppliers in order to buy their unused or second-hand equipment and let them benefit from this network in the frame of supplier agreements. The sought partners must be interested in selling unused machines or units that have become unsuitable.

---

#### Advantages and innovations

The company's manager has a large experience and a strong network in the sector he has been working in for more than 20 years.

His seriousness and skills guarantee quality services.

He is able to deal with an industrial transfer company that has all the certifications and resources required to dismantle or transfer a single machine or a complete unit.

---

#### Technical specification or expertise sought

The French company is always on the lookout for all types of food processing equipment (cookies, bakery, chocolate, confectionery, packaging, as well as meat, cured meats, etc.).
